### About This Game

**How To Be A Real Dude** is an open world sandbox game. This is a life simulator. The main objective is to enjoy what you are doing. You can do whatever you want. You can explore the town, find money and spend it to buy something, kill someone, enter any building – just everything that can be done in real life. You can live a regular life of an ordinary person or you can do any crazy things, play jokes on other people, and so on – it is all up to you.

how to be a real dude. how to be a real dude steam. how to be a real dude download. how real is dude perfect. how to be a real dude game

The route is a typical American Freight route through a deserted scenery. At first this seems a bit dull, but when you play every tree, every rock, every house has significance. There is a lot of rolling stock included with the route and a fair number of scenarios are available, especially if you take care to complete your UP rolling stock collection. Some scenarios use the extended weather patterns with lightning, thunder and heavy rain. If you like shunting, there are some large yards.. Loved the original Archon on C64. Strategic tabletop positioning, distinct yet balanced factions with unique pieces, game-changing spell management and skill based combat duels. Archon was ahead of its time and a precursor for many modern game mechanics. Archon Classic captures and enhances that. Good fun.. I accidentally leveled an entire city block with some crappy rocket car that couldn't reverse, turn or stop, all it could really do is just explode when it comes in contact with slightly heavier than average air.

[It was pretty impressive to be honest](#).. For an Alpha version this looks very promising. I will update the review when I see content updated.

If the game features remain as is this will be a really bad game. But if more content is added (missions, titans, maps) and extra features as promised (stress system) or things that may offer more tactics (like choosing more than one target) this could well become a game for the game library.

. I really recommend this, even for this price tag.

Good story and good plot twists.

---

The one Unit Pack for CKII that is absolutely necessary. I mean just look at those bearded beauties and tell me they don't make you want to go pillage the shores of England, burn down all the monasteries, and carry off the women and children.. I want my money back.... its just like jurassic park when the fat man is running away from the dinosaur. very fun songs to play, highly recommended. One of the best CRPGs in history. An absolute classic with immersive gameplay, tactical turn-based combat, countless race-class combinations and EPIC voice acting.

"I just saw 'em kidnap someone! Good looking woman, too... not that I wouldn't rescue an ugly woman if there were money in it. I'm not biased.

"

(Myles, the local "businessman")

Update:

Nominated for "No Apologies" award in 2017 SASC. It deserves :). I played this game at PAX East quite extensively, and it's been on my watchlist ever since. Eerie atmosphere, beautiful environments, and just the right amount of mystery to keep you going. If you like classic scifi movies, you'll dig this too.
