About This Game

The First World War ushered in the beginning of a new age. On battlefields across the globe, the remaining vestiges of the 19th Century were gruesomely attrited away as the introduction of new weapons favored defensive strategies that lead to massive casualties in futile attacks on fortified lines. Whole Nations mobilized as the citizenry became integral to the war effort, churning out the supplies necessary to keep their soldiers fighting and dying. This was total war and the national suffering seeded movements bent on rebellion and revolution.
